SHELL Research in the Orchard

You will find Shell Research men out on the land year after year, accumulating new data on the life and habits of all pests that attack trees, blossom or fruit, and experimenting to improve ways of destroying the pests.

Further, you will find fully equipped Shell laboratories in capital cities, with specialised equipment for carrying the field scientists' researches still further.

Finally, in Shell plants and refineries you will find additional scientists who make sure that every improvement perfected by the field and laboratory scientists comes to you in Shell Spraying Oils—*to improve the quality and quantity of your harvest.*

You can be sure of

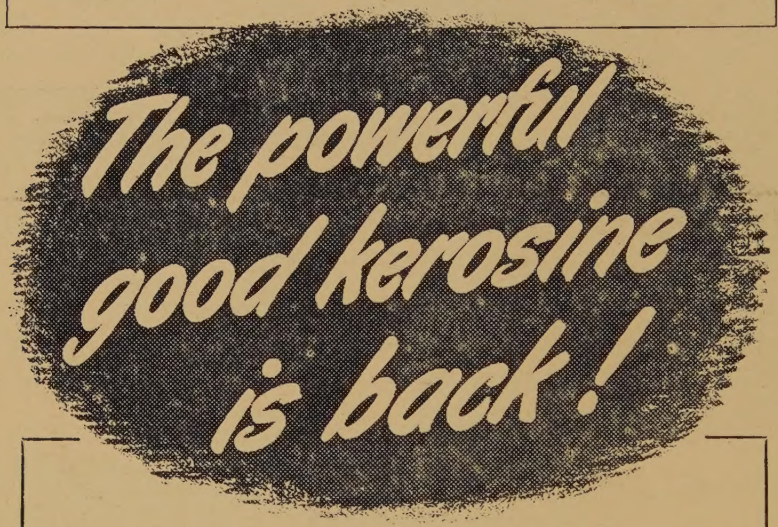
POWERFUL GOOD NEWS !



YOU can now buy Cross — the power Kerosine that farmers everywhere have proved does maximum work per gallon because it vaporizes completely — every drop turns into maximum power. Your tractor does a better job — at lower cost with Cross.

A reminder . . . use SHELL motor oil for perfect lubrication in your tractor engine.
